## **Not Verified Graduates 1970-1973**

The two (2) individuals listed below were included on the class roster lists found in Durham Hall in 2004. Those lists had evolved over a period of 31 years and were not always consistent with the source documents used since then to create the current class graduation rosters. The two (2) names listed here do not appear on any document used in our research.

There are exceptions. In some cases, graduates or former cadre have alerted us that individuals left the OCS program before graduating or they are certain that a listed individual did not graduate with the class originally identified. The names are therefore listed as “Not Verified”, until they can be officially documented as graduates or confirmed as not being a graduate of Fort Sill Artillery Officer Candidate School. Every effort will be made to ensure the historical accuracy.

**The current list was last updated on October 5, 2017**
